Jyväskylä, Finland

Me

I am a 24-year-old student from Kemi. I'm currently in my third year studying Information and Communication Technologies at JAMK University of Applied Sciences. Outside of work, my interests include studying languages and learning about cultures, as well as general sports.

Strengths

As an employee, I am very motivated, methodical, conscientious, and interested in learning new skills. I appreciate smooth teamwork, but I can also work independently without any problems. I was studying abroad in Japan for 6 months, so my communication skills in English were further improved. This is why I am also interested in international job opportunities.

Languages

Finnish – Native

English – Excellent

Japanese - Moderate

Swedish – Moderate
